Kent W. Peterson and D. Gary Rischitelli

6. Occupational Health Nursing: Roles and Practice 76
Bonnie Rogers

7. The Independent Medical Evaluation 86
Christopher R. Brigham, William Boucher, and Alan L. Engelberg

8. The Physician Working with the Business Community 97
Frank H. Leone

9. Drug Testing in the Occupational Setting 102
Kent W. Peterson

10. Accreditation of Occupational Health Services 124
Dennis Schultz

11. Health and Productivity 140
Dee W. Edington and Wayne N. Burton

12. Health Promotion 153
Molly J. McCauley and Robert J. McCunney

13. Principles of Travel Medicine 178
Jeffrey G. Jones, Donald S. Herip, and David O. Freedman

14. Economics of Occupational Medicine 193
Jeffrey S. Harris

15. Educational Opportunities 209
David J. Tollerud and Edward A. Emmett

16. Computers and Informatics in Occupational Medicine Practice 218
Kent W. Peterson, Todd D. Kissam, and Barry A. Cooper

17. International Occupational Medicine 238
William B. Bunn and Sadhna Paralkar

18. Workers' Compensation 242
Jeffrey S. Harris

19. Health Care Management 267
Melissa D. Tonn

Part II. Occupationally Related Disorders

20. Suspecting Occupational Disease: The Clinician's Role 279
Rose H. Goldman

21. Occupational Pulmonary Disease 295
Ian A. Greaves

22. Musculoskeletal Disorders 314
Reid T. Boswell and Robert J. McCunney

23. Occupational Cancers 332
Arthur Frank

24. Cardiovascular Disorders 342
Daniel E. Forman and Paul P. Rountree

25. Neurotoxic Disorders 358
Robert G. Feldman and Chang-Ming Joseph Chern

26. Noise-induced Hearing Loss 381
John D. Meyer

27. Occupational Skin Diseases 395
Edward A. Emmett

28. Psychiatric Aspects of Occupational Medicine 410
Stuart Gitlow and Peter J. Holland

29. Allergy and Immunology 423
Jack E. Farnham and Donald Accetta

30. Arm Pain in the Workplace 438
Nortin M. Hadler

31. Infectious Disease 445
Alain Couturier

32. Hepatic Disorders 458
Ross S. Myerson

33. Case Report: Discovery of Occupational Disease 466
William E. Wright

34. Occupational Ophthalmology 477
Bernard R. Blais, Thomas J. Tredici, and John Williams, Sr.

35. Use of Molecular Genetics in Occupational Medicine 510
Peter G. Shields

36. The Human Genome Project and Occupational Medicine Practice 519
Amy J. Behrman and Judith Green-McKenzie

Part III. Evaluating a Hazard and Work Environments

37. Industrial Hygiene 530
J. Torey Nalbone and James P. McCunney

38. Workplace Safety 546
Myron C. Harrison

39. Toxicology 554
Jonathan B. Borak and Richard C. Pleus

40. Epidemiology and Biostatistics 571
Joseph K. McLaughlin and Loren Lipworth

41. Occupational Medical Surveillance 582
Philip Harber, Craig Conlon, and Robert J. McCunney

42. Risk Assessment in the Workplace 600
John Whysner and Kenneth H. Chase

43. Ergonomics 607
Stacy R. Rose, Erin K. Walline, J. Steven Moore, and Jonathan B. Borak

44. Medical Center Occupational Health 624
Marilyn V. Howarth and Mark Russi

45. Fitness for Duty in the Transportation Industry 649
Natalie P. Hartenbaum

46. The Construction Industry: Its Occupational Health and Safety Experience and Needs 662
Jean Spencer Felton

47. Health Risk Communication 690
Victor S. Roth, David H. Garabrant, and Craig F. Turet

48. Reproductive Hazards 699
William W. Greaves and Kevin Soden

Part IV. Environmental Medicine

49. Environmental Health 714
Tee L. Guidotti and Weimin Song

50. Environmental Medicine: The Regulatory Issues 723
William B. Bunn, Claudia O'Brien, and Jack Shih

51. International Environmental Health 732
William B. Bunn and Jessica Herzstein

52. Clinical Environmental Medicine 737
Alan M. Ducatman

53. Indoor Environmental Quality 746
Robert K. McLellan

54. Medical Aspects of Environmental Emergencies 768
Jonathan B. Borak

55. Emergency Response to Environmental Incidents 774
L. Kristian Arnold

56. Occupational Medicine Aspects of Terrorism 791
L. Kristian Arnold

57. The Environmental, Health, and Safety Audit 813
Ridgway M. Hall, Jr., William B. Bunn, and Thomas J. Slavin

58. Environmental Risk Assessment 823
Roger O. McClellan and William B. Bunn

59. Ambient Particulates and Health Effects 835
Peter A. Valberg

60. Accessing Environmental Data 851
David M. Gute

Appendix

Appendix A. First Aid Supplies in the Occupational Setting 861
Larry M. Starr

Appendix B. Government and Regulatory Agencies 870
Nancy English

Appendix C. A History of the American College of Occupational and Environmental Medicine and the Growth of a Specialty 881
Jean Spencer Felton
