Preface to the Series – Barrie G. M. Jamieson

v

Preface to this Volume – Greg W. Rouse and Fredrik Pleijel

vii

I General Reproduction and Phylogeny

1. Annelid Phylogeny and Systematics 3
Greg W. Rouse and Fredrik Pleijel
2. Oogenesis 23
Kevin J. Eckelbarger
3. Annelid Sperm and Spermiogenesis 45
Greg W. Rouse
4. Sexual Strategies and Mating Systems 77
Gabriella Sella
5. Early Annelid Development, A Molecular Perspective 93
Steven Q. Irvine and Elaine C. Seaver
6. Annelid Larval Morphology 141
Greg W. Rouse
7. Larval Ecology of the Annelida 179
Pei-Yuan Qian and Hans-Uwe Dahms

II Selected Groups of Annelida

8. Non-leech Clitellata 235
Barrie G. M. Jamieson with Contributions by Marco Ferraguti
9. Hirudinida 393
Mark E. Siddall, Alexandra E. Bely and Elizabeth Borda
10. Phyllodocida 431
Fredrik Pleijel and Greg W. Rouse
11. Cirratuliformia 497
Magdalena N. Halt, Greg W. Rouse, Mary E. Petersen and Fredrik Pleijel

x Reproductive Biology and Phylogeny of Annelida

12. Sabellida	521
<i>Greg W. Rouse, Elena Kupriyanova and Eijiroh Nishi</i>	
13. Spionida	565
<i>James A Blake</i>	
14. Problematic Annelid Groups	639
<i>Günter Purschke</i>	
<i>Index</i>	669

Contents

LITERATURE CITED

1. Introduction and Phylogeny of Annelida
2. Systematics
3. Evolution
4. Ecology and Spermogenesis
5. Mating Strategies and Mating Systems
6. Early Annelid Development: A Molecular Perspective
7. Annelid Morphology
8. Evolutionary Relationships of Annelida
9. Hirudinea
10. Nereididae
11. Eteimoneidae
12. Sabellidae
13. Spionidae
14. Problematic Groups of Annelida
