

# Contents

## UNIT ONE

### Introduction to Maternity Nursing

---

#### 1 Contemporary Maternity Nursing, 1

##### Contemporary issues and trends, 2

- Structure of health care delivery, 2
- Integrative health care, 3
- Childbirth practices, 4
- Certified nurse-midwives, 5
- Views of women, 5
- Breastfeeding in the workplace, 6
- Family leave, 6
- Violence, 6
- HIV and AIDS in pregnancy and the newborn, 6
- International concerns, 6
- Healthy People 2010* Goals, 6
- Trends in fertility and birthrate, 6
- Incidence of low birth weight, 7
- Infant mortality in the United States, 7
- International trends in infant mortality, 7
- Maternal mortality trends, 7
- Involving consumers and promoting self-care, 8
- Efforts to reduce health disparities, 8
- Health literacy, 8
- High-technology care, 9
- Community-based care, 9
- Increase in high risk pregnancies, 9
- High cost of health care, 9
- Limited access to care, 9

##### Trends in nursing practice, 10

- Nursing interventions classification, 10
- Evidence-based practice, 10
- Introduction to evidence-based practice reviews, 11
- Cochrane pregnancy and childbirth database, 13
- Outcomes-oriented practice, 13
- Best practices as goal of care, 13
- Clinical benchmarking, 13
- A global perspective, 13
- Millennium development goals, 13

##### Standards of practice and legal issues in delivery of care, 15

- Risk management, 16
- Sentinel events, 16
- Failure to rescue, 16

##### Ethical issues in perinatal nursing, 16

##### Research in perinatal nursing, 17

- Ethical guidelines for nursing research, 17

#### 2 The Family and Culture, 21

##### The family in cultural and community context, 22

##### Defining family, 22

- Family organization and structure, 22
- Family functions, 24
- Family dynamics, 25
- The family in society, 26

##### Theoretic approaches to understanding families, 26

- Family systems theory, 26
- Using theories to guide practice, 27

##### Cultural factors related to family health, 29

- Cultural context of the family, 29
- Childbearing beliefs and practices, 32

##### Developing cultural competence, 35

- Pathways to the development of cultural competence, 35
- Integrating cultural competence with the nursing care plan, 37
- Implications for nursing, 37

#### 3 Community and Home Care, 41

##### Health and wellness in the community, 42

- Public health services, 42
- Community health status indicators, 43

##### Vulnerable populations, 43

- Women, 43
- Rural versus urban community settings, 44
- Refugees and immigrants, 45

- Implications for nursing, 45
- Assessing the communities in which families live, 46**
  - Methods of community assessment, 46
  - Data collection and sources of community health data, 46
- Levels of preventive care, 48**
- Community health promotion, 49**
- Perinatal continuum of care, 49**
- Communication to bridge the continuum, 51**
  - Telephonic nursing care, 51
- Guidelines for nursing practice, 52**
- Home care perinatal services, 52**
  - Patient selection and referral, 53
  - Preparing for the home visit, 53
  - First home care visit, 55
  - Nursing considerations, 59

## UNIT TWO

### Reproductive Years

#### 4 **Assessment and Health Promotion, 63**

- Female reproductive system, 64**
  - External structures, 64
  - Internal structures, 65
  - Bony pelvis, 66
  - Breasts, 67
  - Menstruation, 68
  - Prostaglandins, 71
  - Sexual response, 71
- Reasons for entering the health care system, 73**
  - Preconception counseling, 73
  - Pregnancy, 73
  - Well-woman care, 73
  - Fertility control and infertility, 73
  - Menstrual problems, 74
  - Perimenopause, 74
- Barriers to seeking health care, 74**
  - Financial issues, 74
  - Cultural issues, 75
  - Gender issues, 75
- Health risks in the childbearing years, 75**
  - Age, 75
  - Social and cultural factors, 76
  - Substance use and abuse, 76
  - Nutrition, 77
  - Physical fitness and exercise, 78
  - Stress, 78
  - Sexual practices, 78
  - Medical conditions, 79

- Gynecologic conditions affecting pregnancy, 79
- Other cancers, 79
- Environmental and workplace hazards, 81
- Violence against women, 81

#### **Health assessment, 82**

- Interview, 82
- Women with special needs, 82
- History, 84
- Physical examination, 86
- Pelvic examination, 86
- Laboratory and diagnostic procedures, 91

#### **Anticipatory guidance for health promotion and prevention, 91**

- Nutrition, 92
- Exercise, 92
- Stress management, 92
- Substance use cessation, 93
- Safer sexual practices, 94
- Health screening schedule, 94
- Health risk prevention, 94
- Health protection, 94

#### 5 **Common Reproductive Concerns, 100**

##### **Menstrual problems, 101**

- Amenorrhea, 101
- Cyclic perimenstrual pain and discomfort, 102
- Dysmenorrhea, 102
- Premenstrual syndrome, 104
- Endometriosis, 107
- Alterations in cyclic bleeding, 108

##### **Infections, 111**

- Sexually transmitted infections, 111
- Bacterial sexually transmitted infections, 113
- Viral sexually transmitted infections, 116
- Vaginal infections, 121
- Infection control, 123

##### **Problems of the breasts, 123**

- Benign problems, 123
- Cancer of the breast, 125

#### 6 **Contraception, Abortion, and Infertility, 134**

##### **Contraception, 135**

- Methods of contraception, 137

##### **Induced abortion, 156**

- Incidence, 157

- Decision to have an abortion, 157
- First-trimester abortion, 157
- Second-trimester abortion, 159
- Nursing considerations, 160

**Infertility, 160**

- Factors associated with infertility, 160

## UNIT THREE

### Pregnancy

---

## 7 Genetics, Conception, and Fetal Development, 175

**Genetics, 176**

- Genomics, 176
- Relevance of genetics to nursing, 176
- Genetic history-taking and genetic counseling services, 177
- Ethical considerations, 177
- The human genome project, 178
- Management of genetic disorders, 180
- Genes and chromosomes, 180
- Chromosomal abnormalities, 181
- Patterns of genetic transmission, 182
- Nongenetic factors influencing development, 186

**Conception, 188**

- Cell division, 188
- Gametogenesis, 188
- Conception, 189
- Fertilization, 189
- Implantation, 190

**The embryo and fetus, 191**

- Primary germ layers, 191
- Development of the embryo, 191
- Membranes, 191
- Amniotic fluid, 192
- Yolk sac, 192
- Umbilical cord, 192
- Placenta, 193
- Fetal maturation, 195
- Multifetal pregnancy, 200

## 8 Anatomy and Physiology of Pregnancy, 208

**Gravidity and parity, 209****Pregnancy tests, 210****Adaptations to pregnancy, 211**

- Signs of pregnancy, 211
- Reproductive system and breasts, 211
- General body systems, 217

## 9 Nursing Care during Pregnancy, 231

**Diagnosis of pregnancy, 232**

- Signs and symptoms, 232
- Estimating date of birth, 232

**Adaptation to pregnancy, 233**

- Maternal adaptation, 233
- Paternal adaptation, 236
- Sibling adaptation, 238
- Grandparent adaptation, 239
- Care paths, 253

**Variations in prenatal care, 274**

- Cultural influences, 274
- Age differences, 275

**Childbirth and perinatal education, 278**

- Perinatal care choices, 279
- Childbirth education programs, 279

**Options for care providers, 280**

- Physicians, 280
- Nurse-midwives, 280
- Doulas, 280
- Birth setting choices, 281

## 10 Maternal and Fetal Nutrition, 288

**Nutrient needs before conception, 289****Nutrient needs during pregnancy, 290**

- Energy needs, 290
- Protein, 294
- Fluids, 295
- Minerals and vitamins, 297
- Other nutritional issues during pregnancy, 301

**Nutrient needs during lactation, 302**

## UNIT FOUR

### Childbirth

---

## 11 Labor and Birth Processes, 316

**Factors affecting labor, 317**

- Passenger, 317
- Passageway, 321
- Powers, 324
- Position of the laboring woman, 326

**Process of labor, 328**

- Signs preceding labor, 328

- Onset of labor, 328
- Stages of labor, 329
- Mechanism of labor, 329

#### **Physiologic adaptation to labor, 332**

- Fetal adaptation, 332
- Maternal adaptation, 333

## **12 Management of Discomfort, 337**

#### **Discomfort during labor and birth, 338**

- Neurologic origins, 338
- Factors influencing pain response, 338

#### **Nonpharmacologic management of discomfort, 341**

- Childbirth preparation methods, 341
- Specific strategies, 342

#### **Pharmacologic management of discomfort, 349**

- Sedatives, 349
- Analgesia and anesthesia, 349

## **13 Fetal Assessment during Labor, 368**

#### **Basis for monitoring, 369**

- Fetal response, 369
- Uterine activity, 369
- Fetal compromise, 369

#### **Monitoring techniques, 370**

- Intermittent auscultation, 370
- Electronic fetal monitoring, 371

#### **Fetal heart rate patterns, 374**

- Baseline fetal heart rate, 374
- Changes in fetal heart rate, 376

## **14 Nursing Care during Labor and Birth, 393**

#### **First stage of labor, 394**

#### **Second stage of labor, 429**

#### **Third stage of labor, 446**

- Placental separation and expulsion, 446
- Maternal physical status, 448
- Care of the family, 448

## **UNIT FIVE Postpartum Period**

## **15 Maternal Physiologic Changes, 454**

#### **Reproductive system and associated structures, 455**

- Uterus, 455
- Cervix, 456
- Vagina and perineum, 457

#### **Endocrine system, 457**

- Placental hormones, 457
- Pituitary hormones and ovarian function, 458

#### **Abdomen, 458**

#### **Urinary system, 458**

- Urine components, 458
- Postpartal diuresis, 458
- Urethra and bladder, 458

#### **Gastrointestinal system, 460**

- Appetite, 460
- Bowel evacuation, 460

#### **Breasts, 460**

- Breastfeeding mothers, 460
- Nonbreastfeeding mothers, 460

#### **Cardiovascular system, 460**

- Blood volume, 460
- Cardiac output, 461
- Vital signs, 461
- Blood components, 462
- Varicosities, 462

#### **Neurologic system, 462**

#### **Musculoskeletal system, 462**

#### **Integumentary system, 463**

#### **Immune system, 463**

## **16 Nursing Care during the Fourth Trimester, 466**

#### **Fourth stage of labor, 467**

- Physical assessment, 467
- Postanesthesia recovery, 467
- Transfer from the recovery area, 472

#### **Discharge—before 24 hours and after 48 hours, 472**

- Laws relating to discharge, 472
- Criteria for discharge, 472

#### **Physical needs, 473**

#### **Psychosocial needs, 485**

**Discharge teaching, 488**

- Self-care, signs of complications, 488
- Sexual activity and contraception, 488
- Prescribed medications, 489
- Routine mother and baby checkups, 489
- Follow-up after discharge, 490

## 17 Transition to Parenthood, 496

**Parental attachment, bonding, and acquaintance, 497**

- Assessment of attachment behaviors, 499

**Parent-infant contact, 501**

- Early contact, 501
- Extended contact, 501

**Communication between parent and infant, 501**

- The senses, 501
- Entrainment, 502
- Biorhythmicity, 502
- Reciprocity and synchrony, 502

**Parental role after childbirth, 503**

- Transition to parenthood, 503
- Parental tasks and responsibilities, 504
- Maternal adjustment, 504
- Paternal adjustment, 508

**Factors influencing parental response, 509**

- Age, 509
- Culture, 511
- Socioeconomic conditions, 512
- Personal aspirations, 512

**Parental sensory impairment, 512**

- Visually impaired parent, 512
- Hearing-impaired parent, 512

**Sibling adaptation, 513**

**Grandparent adaptation, 514**

**Practical suggestions for the first weeks at home, 516**

**UNIT SIX**

**The Newborn**

## 18 Physiologic and Behavioral Adaptations, 531

**Transition to extrauterine life, 532**

**Physiologic adaptations, 532**

- Respiratory system, 532
- Cardiovascular system, 533
- Hematopoietic system, 536
- Thermogenic system, 536
- Renal system, 538

Gastrointestinal system, 538

Hepatic system, 541

Immune system, 543

Integumentary system, 544

Reproductive system, 546

Skeletal system, 547

Neuromuscular system, 549

**Behavioral characteristics, 554**

Sleep-wake states, 554

Other factors influencing newborn behavior, 554

Sensory behaviors, 555

Response to environmental stimuli, 556

## 19 Assessment and Care of the Newborn, 559

**From birth through the first 2 hours, 560**

**From 2 hours after birth until discharge, 579**

**Neonatal pain, 601**

Assessment, 602

Management of neonatal pain, 602

**Discharge planning and teaching, 604**

Temperature, 604

Respirations, 604

Feeding schedules, 606

Elimination, 606

Positioning and holding, 606

Rashes, 607

Nail care, 607

Clothing, 607

Sleeping, 607

Safety: use of car seat, 608

Nonnutritive sucking, 608

Sponge bathing, cord care, and skin care, 609

Infant follow-up care, 609

## 20 Newborn Nutrition and Feeding, 617

**Recommended infant nutrition, 618**

**Breastfeeding rates, 618**

**Benefits of breastfeeding, 618**

**Choosing an infant feeding method, 619**

Cultural influences on infant feeding, 620

**Nutrient needs, 621**

Fluids, 621

Energy, 622

Carbohydrate, 622

Fat, 622

Protein, 622  
 Vitamins, 622  
 Minerals, 622

### **Anatomy and physiology of lactation, 623**

Breast development, 623  
 Lactogenesis, 623  
 Uniqueness of human milk, 625

### **The breastfeeding mother and infant, 626**

### **Formula feeding, 638**

Parent education, 638

## **UNIT SEVEN**

### **Complications of Childbearing**

## **21 Assessment for Risk Factors, 648**

### **Definition and scope of the problem, 649**

Maternal health problems, 649  
 Fetal and neonatal health problems, 649  
 Regionalization of health care services, 649  
 Assessment of risk factors, 650

### **Antepartum testing: biophysical assessment, 652**

Daily fetal movement count, 652  
 Ultrasonography, 655  
 Magnetic resonance imaging, 660

### **Biochemical assessment, 660**

Amniocentesis, 660  
 Chorionic villus sampling, 662  
 Percutaneous umbilical blood sampling, 663  
 Maternal assays, 663

### **Antepartal assessment using electronic fetal monitoring, 665**

Indications, 665  
 Fetal responses to hypoxia and asphyxia, 666  
 Nonstress test, 666  
 Vibroacoustic stimulation, 667  
 Contraction stress test, 668  
 Nursing role in antepartal assessment for risk, 668

## **22 Pregnancy at Risk: Preexisting Conditions, 673**

### **Metabolic disorders, 674**

Diabetes mellitus, 674  
 Pregestational diabetes mellitus, 675  
 Gestational diabetes mellitus, 686  
 Thyroid disorders, 689  
 Nursing care, 690  
 Maternal phenylketonuria, 691

### **Cardiovascular disorders, 691**

Peripartum cardiomyopathy, 692  
 Rheumatic heart disease, 692  
 Mitral valve stenosis, 692  
 Mitral valve prolapse, 693  
 Infective endocarditis, 693  
 Eisenmenger syndrome, 693  
 Atrial septal defect, 693  
 Tetralogy of Fallot, 693  
 Marfan syndrome, 693  
 Heart transplantation, 694

### **Anemia, 699**

Iron deficiency anemia, 700  
 Folate deficiency, 700  
 Sickle cell hemoglobinopathy, 701  
 Thalassemia, 701

### **Pulmonary disorders, 701**

Asthma, 701  
 Cystic fibrosis, 702

### **Integumentary disorders, 702**

### **Neurologic disorders, 702**

Epilepsy, 703  
 Multiple sclerosis, 703  
 Bell's palsy, 703

### **Autoimmune disorders, 703**

Systemic lupus erythematosus, 704

### **Gastrointestinal disorders, 704**

Cholelithiasis and cholecystitis, 704  
 Inflammatory bowel disease, 705

### **HIV and AIDS, 705**

Preconception counseling, 705  
 Pregnancy risks, 705

### **Substance abuse, 706**

## **23 Pregnancy at Risk: Gestational Conditions, 715**

### **Hypertension in pregnancy, 716**

Significance and incidence, 716  
 Classification, 717  
 Etiology, 719  
 Pathophysiology, 719

### **Hyperemesis gravidarum, 735**

Etiology, 736  
 Clinical manifestations, 736  
 Collaborative care, 736

### **Hemorrhagic complications, 737**

Early pregnancy bleeding, 737  
 Late pregnancy bleeding, 748

### **Clotting disorders in pregnancy, 755**

Normal clotting, 755  
 Clotting problems, 755

**Infections acquired during pregnancy, 756**

- Sexually transmitted infections, 756
- TORCH infections, 756

**Surgical emergencies during pregnancy, 758**

- Appendicitis, 759
- Intestinal obstructions, 760
- Gynecologic problems, 760
- Collaborative care, 760

**Trauma during pregnancy, 760**

- Significance, 761
- Etiology, 761
- Clinical manifestations, 761
- Penetrating abdominal trauma, 762
- Thoracic trauma, 762
- Collaborative care, 762

**24 Labor and Birth at Risk, 769****Preterm labor and birth, 770**

- Preterm birth versus low birth weight, 770
- Predicting preterm labor and birth, 771

**Preterm premature rupture of membranes, 780**

- Collaborative care, 780

**Dystocia, 782**

- Dysfunctional labor, 782
- Alterations in pelvic structure, 785
- Fetal causes, 785
- Position of the woman, 789
- Psychologic responses, 789

**Postterm pregnancy, labor, and birth, 808**

- Maternal and fetal risks, 808
- Collaborative care, 809

**Obstetric emergencies, 810**

- Shoulder dystocia, 810
- Prolapsed umbilical cord, 811
- Rupture of the uterus, 811
- Amniotic fluid embolism, 813

**25 Postpartum Complications, 819****Postpartum hemorrhage, 820**

- Definition and incidence, 820
- Etiology and risk factors, 820
- Uterine atony, 820
- Lacerations of the genital tract, 821
- Retained placenta, 821
- Inversion of the uterus, 821
- Subinvolution of the uterus, 822

**Hemorrhagic (hypovolemic) shock, 825**

- Medical management, 825

- Nursing interventions, 825
- Fluid or blood replacement therapy, 827

**Coagulopathies, 827**

- Idiopathic thrombocytopenic purpura, 827
- von Willebrand disease, 827
- Disseminated intravascular coagulation, 828

**Thromboembolic disease, 828**

- Incidence and etiology, 828
- Clinical manifestations, 828
- Medical management, 829
- Nursing interventions, 829

**Postpartum infections, 830**

- Endometritis, 830
- Wound infections, 830
- Urinary tract infections, 830
- Mastitis, 831

**Sequelae of childbirth trauma, 832**

- Uterine displacement and prolapse, 832
- Cystocele and rectocele, 833
- Urinary incontinence, 834
- Genital fistulas, 834

**Postpartum psychologic complications, 836**

- Mood disorders, 836
- Postpartum onset of panic disorder, 844

**26 The Newborn at Risk: Problems Related to Gestational Age, 848****The preterm infant, 849**

- Growth and development potential, 853
- Parental adaptation to preterm infant, 854

**Complications associated with prematurity, 870**

- Respiratory distress syndrome, 870
- Patent ductus arteriosus, 871
- Periventricular-intraventricular hemorrhage, 874
- Necrotizing enterocolitis, 874
- Complications of oxygen therapy, 875
- Chronic lung disease, 875

**The postmature infant, 876**

- Meconium aspiration syndrome, 876
- Persistent pulmonary hypertension of the newborn, 876

**Other problems related to gestation, 877**

- Small-for-gestational-age infants and intrauterine growth restriction, 877
- Large-for-gestational-age infants, 878
- Infants of diabetic mothers, 878

**Discharge planning, 880****Transport of high risk infants, 881**

- Transport to a regional center, 881
- Transport from a regional center, 882

## **27 The Newborn at Risk: Acquired and Congenital Problems, 886**

### **Birth trauma, 887**

- Skeletal injuries, 887
- Peripheral nervous system injuries, 888
- Central nervous system injuries, 890

### **Neonatal infections, 890**

- Sepsis, 890
- TORCH infections, 894
- Parvovirus B19, 899
- Bacterial infections, 899
- Fungal infections, 900

### **Substance abuse, 900**

- Alcohol, 901
- Tobacco, 903
- Marijuana, 903
- Cocaine, 903
- Phencyclidine ("angel dust"), 904
- Heroin, 904
- Methadone, 906
- Miscellaneous substances, 906

### **Hemolytic disorders, 911**

- Hemolytic disease of the newborn, 911

### **Collaborative care, 912**

- Exchange transfusion, 912

### **Congenital anomalies, 912**

- Central nervous system anomalies, 913
- Cardiovascular system anomalies, 915

- Respiratory system anomalies, 915
- Gastrointestinal system anomalies, 918
- Musculoskeletal system anomalies, 921
- Genitourinary system anomalies, 923

### **Collaborative care, 925**

- Genetic diagnosis, 925
- Newborn screening, 925
- Cytogenetic studies, 926
- Dermatoglyphics, 926
- Interventions, 926

## **28 Perinatal Loss and Grief, 932**

### **Grief responses, 933**

- Acute distress, 934
- Intense grief, 935
- Reorganization, 938
- Family aspects of grief: grandparents and siblings, 939

### **Special losses, 951**

- Prenatal diagnoses with negative outcome, 951
- Loss of one in a multiple birth, 952
- Adolescent grief, 952

### **Complicated bereavement, 952**

## **Glossary, 956**
